FRED L. WELLS, Treasurer.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the Members of the School Board:

The year ending June 30, 1922, and covered by this, my third annual report, is marked by some changes in the staff of teachers and by improved schoolroom equipment.

ORGANIZATION.

We were fortunate in retaining the services and the mature experience of Mrs. Lillie G. Coburn in the Mills School. Mrs. Belle C. Ball brought to the North School years of experience combined with recent summer training in the normal school at Keene. Miss Mabel M. Marshall who taught at the South, was the only inexperienced teacher. She had received, in addition to her high school course, six weeks training at Keene, where she returned at the end of the year to complete the regular normal school course.

ENROLLMENT AND ATTENDANCE.

The total public school enrollment of Sutton was ninety-eight. Seven of these attended the Warner high school and two the Plymouth high school. Five pupils attended elementary schools in Warner, four in Bradford, five in Wilmot and three in New London.

In the percent of attendance the schools of Sutton again outranked the elementary schools in the other four towns of this supervisory district. With the exception of the Mills school there occurred a considerable increase in the total number of tardinesses.

HONOR ROLL.

For three terms: Abigail Cass, Prescott Chadwick, Martin Johnson, Ervin Thayer, George Tilton.

For two terms: Paul Burke.

For one term: Louise Bullard, Eleanor Chadwick, Roy Davis, Winfred Davis, Howard Hazen, William Hosmer, Harold Hurd, Robert Hurd, Evelyn Huse, Evelyn Johnson, Lloyd Little, Mae Little, Augusta Merrill, Richard Olson, Bernice Presby, George Presby, Levi Presby, Wallace Tilton.

HEALTH.

The following is the report of medical inspection made by Dr. William P. Clough, of New London:

	1921-22
Number of pupils examined,	63
Number of teachers examined,	3

Defects.

Defective vision,	7
Defective hearing,	2
Anæmia,	1
Nervous disease,	1
Pulmonary,	1
Skin disease,	2
Pediculosis,	3
Orthopedic defect,	1
Defective teeth,	45
Hypertrophied tonsils,	9
Defects of breathing,	1
Enlarged glands,	4
Unvaccinated (without proper excuse),	5

Since the health report of last year twenty-four treatments have been secured. The King's Daughters at the Mills, have generously contributed to this work.

I wish to emphasize a recommendation made by Dr. Clough in his report to the School Board, in which he urges that facilities for dental treatment be brought into the community and be made available for all school children.

INSTRUCTION.

The work in reading has been marked by efficient gains in all the schools. The instruction in writing needs more systematic attention.

Some changes have been made in the teaching of geography and spelling. These include in geography the introduction of new and up-to-date text-books dealing particularly with New Europe and Eastern Asia. More attention has been given to the free-hand drawing of outline maps and in some schools to the clay modeling of topographical maps of all continents and of important and familiar divisions. This work lends added interest to reading and to the appreciation of current events by developing a more rapid and correct fixation of geographical locations.

Rapid perception drills in spelling, which employ in reproduction the simultaneous use of eye, ear, hand and voice, have enabled the average pupil to attain a much higher degree of accuracy as measured by the Ayer's Scale, including the one thousand most commonly used words. This work has been supplemented by individual drill in dictionary study.

BUILDING IMPROVEMENT.

The changes made in the schoolroom at the North, place it in a leading group of remodeled one-room rural school equipments. The location of windows and seats has been so changed as to admit more light in the proper direction and to remove to some extent cross-lighting and window-glare from the black-boards. A section of new black-board has been added. The new heating and ventilating system secures an even temperature throughout the room and provides warmth near the floor. Individual and adjustable desks and chairs similar to those in use in the other Sutton schools have replaced the double benches and desks.

Through the generosity of Mr. Fred E. Nelson, the School Board was enabled to secure teachers' desks for the three school rooms now in use. These desks are meeting a long felt need, since in one school room there was no

teacher's desk whatever, and in the other two rooms there were only antiquated and dilapidated substitutes. The new desks are of fumed oak; and provide ample facilities for filing note-books and other forms of pupils' work.

RECOMMENDATIONS.

Considering the increased enrollment in the South school, I recommend that the stove in this school house be jacketed and the room ventilated in the same manner as the room at the North. To secure proper directed light for all pupils and adequate light for those pupils who must occupy seats in the center of the room, five six-foot windows should be placed in the side of the school room next to the road.

CONCLUSION.

In conclusion I wish to commend the teachers for the professional spirit in which they have accepted my criticisms and have adopted suggestions. Also their suggestions have been of value to me. It has been a pleasure this year to share with the School Board and other citizens some part in the progress of your schools.

Respectfully submitted,

GEO. H. HARMON,
Superintendent of Schools.
